

QNAYDS LMS Infrastructure Cost Estimate

Estimated infrastructure and operational costs for the QNAYDS Learning Management System (LMS) using YouTube Unlisted videos, Node.js backend, PostgreSQL database, and Razorpay payment gateway.

Monthly Cost Estimate

- VPS Hosting (Backend + PostgreSQL): ■700/month
- Domain Cost (averaged monthly): ■85/month
- SSL Certificate: Free
- YouTube Video Hosting: Free
- Backup & Monitoring: ■200/month (optional)

Estimated Monthly Cost: ■800–■1,000

Yearly Cost Estimate

- VPS Hosting: ■8,400/year
- Domain Renewal: ■1,000/year
- SSL Certificate: Free
- YouTube Video Hosting: Free
- Backup & Monitoring: ■2,400/year (optional)

Estimated Yearly Cost: ■9,400–■12,000

Notes:

1. Video content will be hosted on YouTube (Unlisted), significantly reducing storage and streaming costs.
2. Razorpay charges transaction fees separately and are not included in the infrastructure estimate.
3. Costs may increase if the LMS scales to thousands of students or requires premium video hosting solutions.
